

Full frequency linear POE column Speaker

TRI-ACV-SPKC-AL-10063

Large venues | Live events & performing arts | Auditorium | planetarium | Network Operation Centers

Features :

- Built-in DSP processing, support gain, mute, equalization, pressure limit, noise gate software adjustment
- AUDIOLINK digital transmission protocol, ultra- low latency, wireless loss and interference
- A network cable transmits audio signals, control signals, and POE power
- Overcurrent protection, high temperature protection, overload

TRI-ACV-SPKC-AL-10063

Technical specifications

Parameter	Value
System Components	6 × 3 "full frequency unit
Frequency response (±3dB)	130Hz-20kHz
Sensitivity	95dB / w / m
Maximum sound pressure level	119dB
Power	120W
Coverage angle	H100 ° × V20 °
interface	1 way RJ45
Material	Wooden
Cooling method	Natural convection cooling
size	120×150×540mm
Net Weight	6.5kg
