

# Bluetooth Speakerphone

TRI-SPX-10123

Large venues | Live events & performing arts | Auditorium | planetarium | Network Operation Centers

## BUILT-IN MICROPHONE AND SPEAKER

The conference microphone integrates a microphone with a speaker. The microphone is responsible for precise voice pickup, clearly capturing the voice of the participants. Speakers, on the other hand, deliver clear and loud sound from the far end, working together to provide reliable audio support for efficient meetings.

## BLUETOOTH CONNECTION

The built-in Bluetooth function is very convenient. Easily pair with a variety of Bluetooth devices, such as computers, mobile phones, etc. There is no need for complicated connections, as long as the Bluetooth connection is turned on, the sound can be transmitted stably, reducing cable fetters and making the meeting layout more concise and efficient.

## LONG ENDURANCE

The built-in 3000mAh lithium battery provides up to 10 hours of playback time, providing a clear, smooth and stable audio and video experience.

## WIRELESS FREEDOM

Lightspeed Bluetooth USB adapter for more efficient meetings

## OPTIONAL EXTENSION MICROPHONE

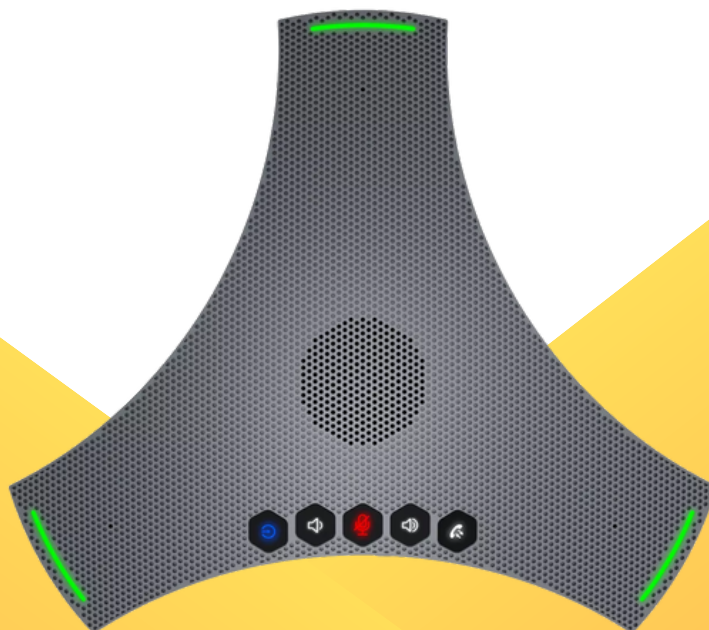

The conference microphone is equipped with an optional expansion microphone, which can be used as a powerful assistant for conference audio. It extends the range of audio to capture sound from every corner, ensuring that every speech in the meeting is clearly heard, so remote participants don't miss any important information.

## DAISY CHAIN

POD4 has a flexible cascade feature that can be connected in tandem with other POD4s to meet larger meeting space needs.

## SEAMLESSLY COMPATIBLE

Compatible with various video conference applications and UC platforms
