

1080P Webcam

TRI-WEBCAM-834

Large venues | Live events & performing arts | Auditorium | planetarium | Network Operation Centers

Features:

- 1080P Webcam is the latest creation of USB three-in-one webcam that perfect for Bracket Camera Indicator individual and huddle space collaboration.
- It integrates FHD camera, microphone, speaker and audio DSP as one device that is compact and easy for deployment.
- With 94° field of view FHD 1080p camera, attendees are clearly presented in the scene.
- The omnidirectional microphone will allow voice pick-up range up to 3 meters and high-power speaker with AGC automatic gain control just gives clear sound experience.
- The built-in audio DSP will effectively reduce the interference of environmental background noise and help on echo cancellation.
- USB drive-free, plug and play, to quickly deploy any network cloud video conferencing via Zoom, Skype, Teams, Gofacing, WeChat, Dingtalk etc.
